## ELITE ERRORS

1. \$10/ \$5 1928-A FRN, **Double Denomination**. For nearly a century, double denoms have been lauded as the King of Errors, as each side bears a different value. As these remain the undisputed King of Errors, this variety is the King of Kings. A mere twelve notes were released and later sold as part of the Grinnell collection during the 1940s. Of the original twelve, three remain untraceable. Each of the other three varieties of small size double denomination errors have considerably larger populations documented. Adding to the allure, this is from the first issue of small size notes; early enough that a numeral appears in the district seal rather than the familiar letter designator. A note absent from even the most advanced collections of errors, small size bills, or assemblages of the Richmond district. Generously margined for an issue where most carry a razor-thin right or left margin. This boasts all the hallmarks of a Very Choice New 64, leaving us to wonder about the ultra conservative grade. With Ch New examples of the 1934-D double denomination—far and away the most common variety—realizing \$55,000 at auction, this eminently rarer and more important specimen should trade for tremendously more. PCGS-B Unc 62 (comment-free)..... \$54,500

2. \$5/\$10 1934-D FRN, Fr. 1960-J, **Double Denomination**. A trophy of the highest caliber, this note features the five dollar denomination on the face with the back showcasing a well-centered ten dollar denomination. Preserved in pristine condition with the coveted Exceptional Paper Quality designation. PMG Ch Unc 64EPQ..... \$44,500

3. \$10 1929 NBN, Guttenberg (NJ), Charter 12806, **Inverted Overprint**. Brown serial numbers + Treasury seal upside down creating an incomparable visual effect. So prohibitively rare that even the most comprehensive collections of error notes lack an example. The error is documented on a mere five banks, with a single example, from a given bank, typifying the census. Specimens from anywhere in the country appear for public sale less than once every twenty years. The breath-taking specimen offered here is likely the finest extant. Wonderfully preserved and lovingly stored it appears considerably nicer than the assigned technical grade. An example is illustrated on page 170 of the 4th edition of United States Paper Money Errors where it carries a value of \$50,000 in EF and is unpriced in higher grades. The crown jewel and pinnacle of the collection it enters next. Truly an opportunity of the millennium. PMG Ch Very Fine 35..... \$19,995

4. \$5 1977-A FRN **Missing Second Print Error**. Only serials + seals on face; back is normal. PCGS Gem New 66PPQ.....\$995
5. \$5 19xx FRN **Missing Second Print Error**. Same error as above. PMG Ch VF 35EPQ.....\$595
6. \$10 19xx FRN **Missing Second Print Error**. Same error; different denom. PMG Ch VF 35EPQ.....\$595

## ENTICING LARGE SIZE

7. \$5 1886 Silver Cert, Fr. 261 **Silver Dollar Back**. Small red seal is found on the face of this note that's easiest recognized and often referred to by its back design featuring five Morgan Silver Dollars. If the perfect banknote exists to guide coin collectors into the paper realm, this is it. Very Fine..... \$2995
8. \$5 1886 Silver Cert, Fr. 262 **Silver Dollar Back**. Large red spiked seal. This note traded hands a few times, but managed to escape circulation entirely free of any negative comments. These quickly become out of reach in higher grades; therefore, we're ecstatic to present this offering. PCGS-B VF 20..... \$2995
9. \$10 1922 Gold Cert, Fr. 1173 **Hillegas**. Looks Unc with vivid back!! Great buy! PCGS-B Ch AU 58..... \$1395
10. \$10 1922 Gold Cert, Fr. 1173 **Hillegas**. White paper, vibrant inks, bold back! PMG VF 20..... \$325
11. \$20 1882 GC, **Department Series-Gold Coin**. Highly collectible, but rarely this affordable. To be this affordable, this note had to trade hands a few times, but fortunately, it still has integrity with rich inks on each side. To be expected with any collectible in this condition, there are a few edge nicks and well-concealed pinholes that are only barely visible when the note is backlit. Fine..... \$750
12. \$20 1906 GC, Fr. 1183. **1906 Gold Certificate**. Seen less often than later design. This note has attractive and well-balanced margins despite receiving a 'minor trimmed' comment. PCGS-B EF 40..... \$895
13. \$50 1922 GC, Fr. 1200 **Fifty Dollar Gold Cert**. This note faces up like a well-margined Ch CU. Flip it over and the back is as vivid and deep orange as the day it was printed. Some tiny rust freckles appear, but aren't optionable and not bad enough to 'net.' Great look; better value! PMG Ch VF 35..... \$2495
14. \$100 1882 GC, Fr. 1210 **Department Series Hundred**. Beautiful coloring on both sides of this Benton including a very nice orange back for this series. PMG Very Fine 20..... \$3295
15. \$100 1922 GC, Fr. 1215 **Benton-Gold Coin** Retained good body + above average color for the grade, particularly on the back. Perfect for the type set collector looking for a nice problem-free example. PMG Very Fine 25..... \$2495

17. \$500 1934 FRN, Fr. 2101-D **Five Hundred-Cleveland**. An attractive and problem-free example of a high-denomination that's destined to turn heads. This note offers exceptional eye-appeal and comes without any problems or negative comments...as many do. PMG Ch VF 35..... \$2250
18. \$20 1928, Fr. 2402 **Gold Certificate** Great margins, sharp corners, bold inks, and exceptional eye-appeal! It's hard to imagine how it could look any better. LCGS Gem New 65PPQ..... \$2995

## April Specials:

19. **Coal Recovered from the Titanic**: Early morning April 15, 1912 the RMS Titanic succumbed to the damage of the iceberg it struck and sank to depths of the Atlantic Ocean. Only four days into her maiden voyage, this tragedy ranks amongst the deadliest peacetime maritime disasters with more than 1500 lives lost. While many of the ships contents will forever remain a possession of the sea, there were some pieces of coal that were recovered from the boiler that have an unquestionable provenance. Each piece of coal has been encapsulated in a floating display with the CAG/ NGC label reading "Coal Recovered From Boiler Of RMS Titanic" + includes an informative double-sided COA that shares a brief story of these sunken artifacts..... \$245
